

# JeraSoft Billing 3.6.2

JeraSoft is pleased to announce the release of VCS 3.6.2, which had some additions and improvements. This document will describe the features with most impact on system's functions and also provide information regarding their usage.

## Dashboard Improvements

In this version Dashboard received additional functionality, that is filters, such as:

- *Reload Interval* where you can specify refreshing interval of visual graphs;
- *ACD ASR Management*: this filter allows you to display simultaneously more then one *ACD & ASR* chart or disable displaying *ACD & ASR* chart at all;
- *Active Calls Management* allows you to display more then one *Active calls diagram* at the same time or disable displaying *Active calls diagram* at all;
- *Top Destinations Management* gives a possibility to display more then one *Top 10 destinations bar-chart* or disable displaying *Top 10 destinations bar-chart*.
