

JeraSoft Billing 3.6.7

JeraSoft is pleased to announce the release of VCS 3.6.7, which had some additions and improvements. This document will describe the features with most impact on system's functions and also provide information regarding their usage.

Various small changes and updates

1. Now transactions list is loading much faster then before.
2. Credit time in *Radius AUTH response* is calculated with taking *Extra Cost* into account.
3. Warnings concerning license / support expiration are only visible for users with administrator permissions.
4. From now, you can generate *CDRs*, *LCR*, *Balance reports* by different minute periods just by setting time period in "*To date*" fields.
5. Added special SIP collector for Nextone which doesn't quote URI header.
6. The routing speed was increased, especially for routing plans which include big amount of rules and code name based ones.
7. From now, *Rates Import* requires "*Write*" access permission for *Code Decks*.
8. *Clients list* page now is loading faster (i.e *Management - Clients* section).
