JeraSoft Billing 3.7.6

JeraSoft is pleased to announce the release of VCS 3.7.6, which had some additions and improvements. This document will describe the features with most impact on system's functions and also provide information regarding their usage.

General

1. From now, *Dynamic Routing Manager* and *Backup Manager* will not launch simultaneously.
2. Issue concerning Transactions for automatic charges from Authorize.net was fixed, i.e. the situation when automatic charges were created as pending.
3. *Radius* was improved for enhancing the results of its work.

Interface

There are some changes in *Clients - Clients Packages* section, that is, packages are arranged by *Status (asc)* and *Expire date (desc).*

Accounting

1. *Invoice Templates* were improved, i.e. **{calls_subtotal}** and **{cost_subtotal}** variables and their' descriptions were added into templates Help table.
2. Issues with *Money Package* were resolved, i.e. when taxes were calculated for calls which were totally covered by *Package Credit.*
3. The issue with *Rate Formulas* displaying in *Invoices* was solved.

Rates Management

1. Improvements of the *"Automatic Email Import"* section, that is splitting of search criteria field on two separate fields – *"Sender Match" field and "Subject Match" field*, which enables simultaneous searching of specific mail titles and the sender of an email.
2. Please turn your attention to interface of the *"Import"* section which was reworked a little bit, i.e. *"Full A-Z import"* and *"Enable confirm mode"* checkboxes were swapped. Also *"Close date"* field now is placed below the *"Full A-Z import"* checkbox.

Reports

From now, Profit report is working much faster.

Routing

Appearance of new default routing plan called *"DR: DID + Simple LCR"* which includes two rule:

- route to DID;
- dynamic simple LCR rule like in *'DR: Simple LCR'* routing plan.

Tools
CDRs Disputes

Columns validation during the process of a file import was changed. Now, any two columns from the list are required, the third one will be calculated on two previously selected columns respectively:

- *"Connect time";*
- *"Disconnect time";*
- *"Session time".*

Plus, file importing process was improved.
