JeraSoft Billing 3.8.2

JeraSoft is pleased to announce the release of VCS 3.8.2, which had some additions and improvements. This document will describe the features with most impact on system's functions and also provide information regarding their usage.

General Improvements and Updates

1. From now on, you can set the state (such as *normal, to sent or to verify*) for all automatically created invoices by going to *Configuration - Settings - Invoicing Settings*.

2. Additional improvements of *Audit Log* interface were made.

3. In case if a client was moved from one reseller to another, the Summary Report will be generated for this client based on the state at the time of the call.

4. All issues concerning CDRs Disputes module were resolved.
